

Jack Ashley, a Member of Parliament, meets with Congressman David Bonior (D-MI), a member of the College's Board of Trustees. Ashley flew to the United States to address the Gallaudet Research Institute's seminar series. Seated is Ashley's wife, Pauline.

Telephone survey now under way

The Telecommunications Department is conducting a long distance usage study at the Kendall Green campus. The study began this week and will continue through June 4.

According to Michael Southers, the College's telecommunications manager, the results of the study will be used in redesigning the College's long distance calling network. Spiraling telecommunications costs projected for next fiscal year spurred the department to conduct the analysis.

The analysis will be used to determine calling patterns on campus as well as telephone usage among departments. The Telecommunications Department will keep a record of the following information: the extension number and department from which the call originates, the telephone number dialed, the date and time of the call and the duration of the call.

Telephone usage data on campus will continue to be analyzed monthly after completion of the study. Department heads may be given a monthly report on telephone usage in their departments, Southers stated.

Final lunch date

Friday, May 18 marks the last day lunch will be served in "Ole Jim" until the fall when service resumes. "Ole Jim" will continue to be available for catered lunches, lunch meetings, etc., after this time. To make such arrangements, contact MAP at "Ole Jim" at x5277 (voice) or x5105 (TDD).

While lunch will discontinue on May 18, Happy Hour will continue every Thursday and Friday from 4 to 7 p.m.

The 'plunge' into a world of silence

It was 16 years ago that Jack Ashley lost his hearing and, as he said, took the "plunge" from a world of sound into a world of silence. "I learned the fundamental difference between a hearing person and one who is very profoundly deaf. It was, it seemed to me then, the difference between living life to the full and merely existing in miserv."

Ashley, Labor Member of Parliament for Stoke-on-Trent, England, gave "A Personal Account on Hearing Loss" April 25 at the KDES Auditorium, during which time he spoke of his feelings of initial loss and then hope as well as his experiences as the only deaf person to serve in any legislature in the world.

Ashley was first elected to Parliament in 1966 and was appointed Parliamentary Private Secretary to the Deputy Prime Minister. Several months after an operation to repair a perforated ear drum in December, 1967, Ashley was left profoundly deaf in both ears.

The School of Communication held an open house Friday, April 27 at its offices in the newly renovated Kendall Hall. The Department of Interpreter/Transliterator Instruction and the Department of Sign Communication are housed there.

"Apart from the traumatic shock of this change, I felt a profound sense of loss," he stated. "I was aware that my life had undergone a profound and appalling change. I knew that the confident, easy going relationships with people, which I had always taken for granted, had gone forever. My political ambitions had been demolished at a stroke. Overnight I had been transformed from an eager, aspiring MP, tipped by some as a 'high flyer' destined for Ministerial office, to a disabled person whose political hopes lay in ruins."

Yet, he said, he never quite gave up hope. He learned to lipread and with the help of his wife, Pauline, who took notes to supplement Ashley's lip reading, was able to continue his work in Parliament. He has been re-elected in every election since 1966.

"The emotional response of any individual to deafness is a very personal matter, determined by (his) temperment and expectations as well as the degree of deafness. However, it must also be affected by the practical experience of coping with deafness and how well or badly these turn out. The essential difference of my experience lies in holding public office. This, paradoxically, compounds the problems

Robert Davila elected to post at CEASD meeting

Robert Davila, vice president for Pre-College Programs, was elected president-elect of the Conference of Educational Administrators Serving the Deaf (CEASD) at the group's recent annual convention in California.

His two-year term will begin on July 1. At the end of that term, Davila will take over as president of CEASD for two years. Davila will then become the first person to have held the top elected office of all three professional organizations for educators of the deaf. He is a past president of the Convention of American Instructors of the Deaf and the Council on Education of the Deaf.

As president-elect, he will serve as program chairman, responsible for planning CEASD's annual conference. Next year, that meeting of administrators of schools and programs for the deaf from across the U.S. and Canada will be held in St. Augustine, Fla.

CEASD was founded in 1868 and lists as its joint goals the improvement and advancement of educational opportunities for the deaf and to encourage the efficient management and operation of programs serving the deaf.

Safety and Security Department offers list of precautions

During the first three months of this year, the Department of Safety and Security (DOSS) recorded 82 crimes involving theft or loss of personal property.

Twenty-one of those crimes were committed in dormitories and 61 in offices, classrooms, parking lots and other campus areas. Total loss was estimated at more than \$9,000 and 70 percent of the crimes were committed in unsecured places. An example of a crime committed at an unsecured place would be theft from an unlocked, unoccupied office.

According to the DOSS, the potential of becoming a victim of such crimes

of opportunity can be reduced by taking eight precautions. They are as follows:

1—Keep dorm room doors locked at all times, even when you are in the

2—Lock office doors when you will be out of the office even for a short period of time.

3—If it is not possible to lock the office, remind others in the area to keep an eye on the office while you are gone.

4—If possible, lock up any personal property or portable equipment as an extra precaution. Purses, portable TDDs, calculators, typewriters, etc. are

especially vulnerable to a sneak thief who only needs a few seconds in an empty office or room.

5—Do not keep property stored in your vehicle; it is an open invitation to

6—Report any suspicious persons to the DOSS without delay.

7—Participate in Operation Identification to mark your personal property and protect it against theft. Contact the DOSS for more information.

8—Think security at home and at work. It may take a little more time to take the necessary precautions, but it may save you the trouble of replacing your property later.

Serendipity Library Bits & Pieces

Equipment inventory

by Deanna Locke

There is a sense of busyness in the air. Term papers are due, finals are around the corner, dorm residents search for boxes and other packing materials. The Abbey rocks before summer goodbyes.

However, before the last rites are given for this school year, equipment borrowed from the library must be returned. The last day to return equipment was May 4. No more equipment will be loaned out until May 29. This allows time to inventory and clean equipment in preparation for summer school and the flooding tide of Sign Language students. Any equipment needed during this period can be obtained through special arrangements with library staff in the Individualized Learning area. Equipment that is out delays the inventory process.

Equipment requires periodic cleaning and care, particularly if it is used a lot. Two of the most used pieces of equipment in the library are the audio-cassette recorders and the videocassette recorder/players. Both items have magnetic heads over which the tape runs. This process creates wear for both tape and head. It also builds up oxides on the heads which must be removed. We use a chamois stick or cloth, alcohol and a commercial head

cleaning spray. While most manufacturers recommend that a cotton swab be used, we have found that chamois, while more expensive, works better as it leaves no hint. There are commercially available head cassette cleaners, but we prefer not to use them as they contain mild abrasives and this contributes to the wear of the heads.

The heads also become magnetized over a period of time and need to be de-magnetized. Head de-magnetizers can be purchased in stores. Care needs to be taken that all software such as tapes be removed from the area so they are not accidentally erased. For personally used equipment, follow the manufacturer's instructions and recommendations for care and maintenance.

A few other precautions to note: Avoid extreme heat, moisture and dust, using close to magnetic fields, strong vibrations, electrical shocks and blocking the vibration holes. This helps to extend the life of the machines and their software. It also aids in sharper, clearer output and adds to the viewing or listening enjoyment. The library wants to provide you with clean, operable equipment. By returning the equipment, we can continue to keep it in peak condition.

Reminder: All books should be returned to the library by May 10.

Sign language classes offered this summer

Sign Language classes will be offered for employees this summer, with Beginning I, Beginning II, and Intermediate I classes scheduled from June 4 to July 27. Classes will meet twice a week for two hours a day.

Registration will be held June 1 from 9 a.m. to noon and 1 to 3 p.m. in the

second floor lobby of Kendall Hall.

Anyone interested in taking classes above the Intermediate I level as well as departments wishing to have an inter-departmental class offered should contact Lynn Jacobowitz at x5630 or x5633. Such classes will depend on enrollment.

Sponsored R&D

Grant/contract deadlines

Provided below are application deadlines of selected federal programs that offer potential grant or contract opportunities for Kendall Green faculty, staff and graduate students. More details on these and other programs of interest can be obtained from the Office of Sponsored Research, x5030 (voice or TDD).

State plan projects

Applications are being accepted for new early childhood state plan projects under the Handicapped Children's Early Education Program, the U.S. Department of Education announced recently. Applications are due on June 20.

The main purpose of this program is to assist states in developing and implementing a comprehensive delivery system that provides special education and related services to handicapped children from birth through 5 years of age.

Approximately \$3.1 million will be available to support 26 new projects. Planning grants will provide up to \$100,000 a year, development grants up to \$150,000 a year and implementing grants up to \$200,000 a year. State educational agencies are eligible for this award.

For application forms, program information packages and further details, please contact Becky Calkins, Handicapped Children's Early Education Programs, Department of Education, 400 Maryland Avenue, SW, (Switzer Building, Room 4613), Washington, DC 20202, 732-1157.

Jean E. Martin, a wardrobe planning consultant, addresses the Secretaries' Day program April 25 at Ely Center. The program was planned in recognition of the services rendered by the College's corps of 175 secretarial and office support personnel.

Parliament Member addresses group

continued from page 1 of deafness immeasurably and simultaneously makes them easier," Ashley explained.

"It was into a maelstrom of the spoken word I chose to remain after losing my hearing; a place where no one else suffered grievous hearing loss, where no sign language was used, where there were no interpreters and which was the most public of all places," he said.

While at first Ashley depended upon lip reading and notes to follow debates in Parliament, he now uses a computer system which translates a shorthand reporter's record into text on a television screen.

One of the most important decisions Ashley has made, he said, was in deciding how far he should specialize in helping disabled people. "Obviously I would be asked by disabled people to make representations for them. Being disabled myself meant I would have a deeper understanding of their problems." He decided that the biggest contribution he could make would be to carry on as "a normal MP campaigning on wide range of issues," with disablement as a key issue.

A Companion of Honor and Privy Councillor, he is a leader in British legislative and private efforts for the handicapped and chairman of the Parliamentary All-Party Disablement Group. In addition, he has worked to set up a network of sanctuaries for battered wives, provide compensation for adverse medical drug reactions, reform rape laws to give victims more legal protection in court, establish a code of conduct for drug exports to Third World countries and establish a Royal Commission on legal procedures.

"I have been surprised by how little total deafness has handicapped me in conducting these campaigns," Ashley said. "By using all the Parliamentary tools available and by the use of publicity to win public support, I have achieved my aims as effectively as any other MP.

"The problems due to deafness were real enough, although not as monumental as I expected. Being in public life made deafness easier because becoming well known as an MP meant that the public developed a friendly relationship. A natural corollary to loss of hearing is loss of confidence. I therefore resolved on my return to Parliament to regain my confidence as quickly as possible. I regard it as of the greatest importance that deaf people

should 'walk tall' and not allow themselves to be patronized however difficult the circumstances must be." That will be accomplished more easi-

That will be accomplished more easily if the public's attitude changes, he said, noting that, "Legislation will be useful but a comprehensive change in public attitudes can only be wrought by deaf people themselves. It is by their own efforts, meeting their particular challenges, coming to terms with their unique disability and battling to overcome their specific obstacles that deaf people can change society's view of them.

"It is the nature of the disability and the public's perception of it that this will not be easily accomplished," Ashley continued. "But when it is achieved, the future of deaf people will be in the right hands. It will be in their own hands. They can then free themselves from patronage, discrimination and dependency and fulfill their potentialities. That should be the aim and the aspiration of every one of us."

Willa Cook, who volunteers her time at MSSD.

MSSD student wins national competition for playwrighting

Terrylene Theriot, an MSSD junior from Chicago, has won a nationwide competition for playwrighting with her one-act script, "Imagine."

The National Committee, Arts with the Handicapped, co-sponsor of the Integrated Young Playwrights Project, has announced that Theriot's winning play will be produced and performed by professional actors at the John F. Kennedy Center for the Performing Arts on May 25, during the Committee's National Very Special Arts Festival.

The competition, an outgrowth of the Young Playwrights Festival at the Foundation at the Dramatists Guild (the

Five KDES students win in creative contest

KDES students again this year swept the National Creative Contest sponsored by The Center on Deafness in Des Plaines, Ill. Five students qualified to attend the competition April 27-29 by winning the eastern regional preliminaries and each one came home a winner.

Erica Harper, 11, a student in the Intermediate Department, won a first place award for sign-singing. Primary student Jennifer Yost, 8, won best personality in the contest pageant.

Special Opportunities student Irving Turner, 9, won second place and Intermediate student Greg Thomas, 10, won third place fo their Michael Jackson dances.

Terry Giansanti, 8, a student in the Primary Department, received a certificate of award for creative writing.

other sponsor of the project), was open to all youths between the ages of 12 and 18. The scripts were required to address some aspect of disability in contemporary society. "Imagine" is the story of a young deaf girl who convinces a jaded old man that life is worth living.

This was Theriot's first attempt at

playwrighting, although she said, "I always wanted to write a play but I didn't know how to get the words out of my mind.

MSSD drama instructor Tim McCarty helped her put her thoughts on paper.

Theriot has been very active in the performing arts at MSSD and was the school's Miss Junior NAD this year.

The School of Education and Human Services held a lunchtime faculty development seminar April 18 at "Ole Jim." Pictured are some of the participants.

Gallaudet graduate has major role in program

The syndicated television program, "Fame," which is about a high school for the performing arts, will feature four deaf characters in the show scheduled for the second week of May. The program will appear in the Washington area on both Saturday and Sunday, May 12 and 13 on WTTG-TV, Channel 5.

Jackie Kinner, who graduated from Gallaudet in 1976 and will receive her master's degree from the College this year, has a major role in the program. The three other hearing impaired characters are played by Richard Kendall, also a Gallaudet graduate; Julianne Gold; and Mark Dana.

Lunch special planned May 11 at "Ole Jim"

A luncheon special, "Tribute to Your Birthday," will be held May 11 at "Ole Jim." "Ole Jim" will be decorated with streamers and balloons. The menu will include London broil, escalloped potatoes, green beans, rolls and butter, cake and ice cream and a beverage. Cost of the lunch is \$4.95.

Among Ourselves

Jose Manuel Navarro of the Romance Languages Department and the International Studies Program, delivered the keynote speech at Aspira of Pennsylvania's Thirteenth Annual College Conference in Philadelphia on Dec. 8. The 300-member audience consisted of high school students and 52 representatives from colleges and universities from the east coast. In his speech, Navarro emphasized the critical role that people of Latin American backgrounds will play in this nation in the near future. Aspira of Pennsylvania, based in Philadelphia, is an affiliate member of the national organization, Aspira of America, Inc., which has been serving the educational needs of Latinos and other minorities in seven cities across the United States and Puerto Rico since 1961.

David Updegraff, director of Special School of the Future Project, and Don Pettingill, director of Programs in Adult and Continuing Education, conducted a two and one-half-day Career and Continuing Education Workshop at the Manitoba School for the Deaf in Winnipeg, Manitoba, Canada. The workshop was held Jan. 26-28. Attending the workshop were students, parents, teachers, deaf adults and other professionals.

Laura-Jean Gilbert, director of Publications, served as a judge for United Way of America's National Communication Contest. Judging for the contest was held Jan. 10 at United Way of America in Alexandria, VA.

LaVarne Hines, director of the Office of Equal Employment Opportunity and Community Relations, has been selected as an Outstanding Young Woman in America for 1983 in recognition of her professional accomplishments and service to the community. Selections are made from each of the states and the District of Columbia.

The biography of Thomas J. Landers, dean of the School of Education and Human Services, is included in the 43rd edition of "Who's Who in America" published by Marquis Who's Who,

Peter Moran and John Scott received masters' degrees in public relations last summer from the Kogod School of Business of The American University. Moran is exhibits manager for the Alumni/Public Relations Office and Scott is director of Marketing and Program Development for College Educational Resources.

Activities offered to community

The intramural program at the Northwest Campus has been extended to include various activities for the nearby Northwest community. Herb Thompson, director of the intramural program at the Northwest Campus, called the response from the neighboring community "great."

The activities offered were limited

and presented on an experimental basis. They included an instructional swimming class and slimnastic class. In addition, the universal weight equipment has been made available for community members.

The swimming class has proven to be the most popular activity, with more than 30 persons registered. The class meets Mondays and Wednesdays from 6 to 7 p.m. Plans are now in the works to begin a second class on Tuesday and Thursday evenings. Participants' ages range from 18 to 75.

The slimnastics class was designed for individuals who want to tone body muscles and reduce body weight. Thompson teaches the class, leading participants in various exercises and limited weight training.

Limited use of the Jane Fonda workout program is also included in this activity. A noon slimnastics class is also offered for Northwest Campus staff and faculty on Tuesdays and Thursdays.

The universal weight equipment has been made available to the Northwest community on Tuesdays and Thursdays from 5 to 7 p.m.

Herb Thompson, director of the intramural program at the Northwest Campus, gives instruction on the universal weight equipment.

All of the activities are offered free of charge. Ann Davidson, dean of the Northwest Campus, has received a number of letters from members of the community expressing satisfaction with the program and their desire for more offerings during the summer months.

Thompson said a number of successful student intramural activities were also offered during the past semester. The intramural program is now planning activities for the summer months as well as for the fall New Student Orientation Program.

General campus announcements

• The D.C. Chapter of the Gallaudet College Alumni Association is sponsoring a fund-raising Sign-a-Thon at Columbia Mall in Columbia, MD, Saturday May 26 from 10 a.m. to 5 p.m.

The Sign-a-Thon will feature members of the deaf community performing skits, songs, mime and storytelling. The chapter will also have a booth at the mall to sell arts and crafts and baked goods.

Hilary Ainbender, chapter member and a faculty member at the Northwest Campus, is chairperson for this event.

Persons who would like to perform or assist with the Sign-a-Thon should contact Ainbender at home at 890-3712 (TDD) after 6 p.m. or at the Northwest Campus at 7-5883 (voice and TDD).

· Presidents and representatives of deaf organizations are invited to attend a meeting May 16 at KDES concerning the establishment of a Linwood D. Smith Fund. The meeting will begin at 6 p.m. in Conference Room 204. During the meeting, plans will be discussed for the first joint annual fund-raising event during National Deaf Heritage Week, Dec. 2-9, as well as ideas for structuring the future memorial fund.

For more information, contact Al Couthen at x5256 or x5240 during office hours or Alice Hagemeyer at 727-2255 (office) or 572-5168 (home).

• There will be a meeting of persons interested in joining a local bicycle/ touring club May 11 at 4:30 p.m. at the Edward Miner Gallaudet statue. A rain date is scheduled for May 14 at 4:30 p.m.

• The telephone number for the Gallaudet College Office of The Riggs National Bank has been changed. The new number is 835-5660 (voice and

• "The Hurt That Does Not Show," an hour-long PBS special dealing with hearing conservation and hearing impairment, will air nationwide on Sunday, May 13 at 10 p.m. Hosted by actress Louise Fletcher, the program is the second of three specials which examine hearing loss.
Gallaudet College is credited on the

special, which will air on 315 PBS stations. A number of scenes in the program were shot at Gallaudet.

• The Gallaudet College Press Distribution Office staff has moved to College Hall, joining the editorial, production and marketing staffs already located on the fourth floor. While the Press will continue to use the building behind "Ole Jim" as a warehouse and shipping facility, orders and inquiries should be directed to Room 407, College Hall, x5595 (voice) or x5276

Results of women's softball action

The women's softball team has played eight games as of April 27 and is sporting a 3-4-1 record. The three victories came against Wilson College, 14-9, and a double header sweep of Shenandoah, 4-3 and 9-8.

On April 24, the Bisonettes played Washington College to a 5-5 tie. That game went 11 innings before being called because of darkness.

Results from the men's baseball team have not been made available to On the Green. When those results, and results of other spring sports are known, On the Green will publish
